Response to Amendment

Claims 1-26 have been canceled; all new claims 27-59 have been submitted

1. The reply filed on August 29, 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The newly submitted claims 27-59 are directed to an invention independent and distinct from that examined in the First Action on the Merits. The amendment filed on August 29, 2006 canceled all claims drawn to the elected invention and presented only claims drawn to an independent and distinct invention not previously considered in the first action on the merits (MPEP § 821.03).

1. None of the previously examined claims comprised urea. Nor did any of the claims recite an enzyme substrate for urease.

1. Original claim 24 was the only claim directed to a kit. The kit comprised two devices, the first being a device comprising an **indicating agent** that is color sensitive and the second device being a **breath collecting** device.

Both newly submitted independent kit claims NO longer comprise the breath-collecting device.

Additionally all of the claims require "a source of urea", which was not previously claimed. The prior claims were directed to devices that detect the presence of ammonia odors (original independent claim 1); the source of the odors being any source. No reagents were included or required or claimed in any of the examined embodiments to include substrates for production of ammonia.

Original claim 24 was directed to detection and collection devices for ammonia (original

Art Unit: 1645

claim 24), and no reagents for detecting urease, an enzyme that uses a substrate/reagent for generating ammonia.

All of the new claims recite combinations of reagents and claim limitations that are an independent and distinct from the claims which were examined in the first action on the merits.

4. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
